1. INTRODUCTION

1.1 ABOUT THE PROJECT

Centralized Port Community System (PCS) is an initiative by Indian Ports Association (IPA) intended to provide a single window system for the Port communities in India to securely exchange the documents and information electronically with their stakeholders involved in the maritime transport and logistics chain including the trading partners and government agencies. It also expected to provide global visibility and access to the central database to all its stakeholders through internet based interfaces.

1.2 PURPOSE AND SCOPE OF THIS DOCUMENT

This document specifies the Directories for the Port Community System (PCS) for Indian Ports. The scope of this document includes the customs and PCS directories. This document is an addendum to the PCS Design document.

The target audience for this document is project team members, technical working group, end users and IPA or any other government officials involved in the project.

1.3 REFERENCES
